Sir:

Before examining the captioned patent application, please enter the following Preliminary Amendment.

The Preliminary Amendment corrects a typographical error in paragraph [0021] so that it now properly refers to FIGS. 5A-5D rather than merely to FIGS. 5A-5C. FIG. 5D is already recited, for example, in the following paragraphs: [00126] [00137] [00138] [00141]. Also, "constitutes" is changed to --constitute-- for grammatical purposes, and repetitive text at the end of the paragraph is deleted. Accordingly, no "new matter" is added by this Amendment, and entry of the Preliminary Amendment is respectfully requested..

Respectfully submitted,

Date: <u>January 27, 2004</u>
